An article in the Garden Island highly commend the promotion of J. C. Davis, principal of the Hanalei school, to the position of Normal Inspector of Oahu and Kauai in place of J. K. Burkett who recently resigned. The work which the new inspector has done in connection with his school is praised in convincing terms and the opinion is expressed that a wiser choice for the inspectorate could not have been made.

KAUAI SHOOTING ASSOCIATION.
LIHUE, July 11.—An association called the Kauai Shooting Association has been formed for the purpose of protecting and importing game of all kinds. The Association controls all the lands of the McBryde Plantation Co., Koloa Sugar Co., G. N. Wilcox's lands and W. H. Rice's lands. At a meeting held June 28th at the office of G. N. Wilcox, the following officers were elected: President, P. A. Isenberg vice-president, G. P. Wilcox; Treasurer, J. H. Consey; Secretary, C. A. Rice. The above named are the directors.

WILL WRITE ON HAWAII PLANTS

BOOK TO BE PUBLISHED SHORTLY
BY H. G. GUPPY WHO VISITED
THESE ISLANDS YEARS AGO.

H. G. Guppy, the scientist, who was in these islands some years ago studying the plant and geological conditions of these islands, is shortly to publish an account of his researches. During his visit to these islands he passed nearly four weeks living in the crater of Mokuawewe. He underwent serious inconveniences and sickness during his stay in the crater, but his desire to become acquainted with the geological conditions of Mauna Loa caused him to remain.

In writing recently to a friend in Honolulu Mr. Guppy states that he has lately published a book on the geology of one of the Fiji Islands, and at the end of the year he hopes to complete another work on the dispersal of plants in the Pacific. He intends to bring in his Hawaiian notes in this work. He will send the book to these islands for review on its publication.

He inquired whether any attempt had been made in the Hawaiian Islands to plant cocoa trees. He was in Ecuador last March and learned considerable of the trees. They require five to six years in which to bear, but once the trees start to produce, they will yield a fortune. The trees require a fair amount of rain but they do not require a great deal of care.

KAUAI WANTS A SOLID SIX

HAS MANY DEMANDS TO MAKE IN
NEXT LEGISLATURE AND PROPOSES TO ENFORCE THEM.

LIHUE, July 11.—The Garden Island says:

Kauai should have capable energetic men in the next legislature.

There are so many things necessary for Kauai which should be attended to at once, that the people should not waste a single representative or senatorial position for complimentary or diplomatic reasons.

We want a solid six in the legislature who know what Kauai wants; who know how to go about to get it, and who will get right down to business and not take "no" for an answer.

We should have an island auditor added to our official list. If an auditor was essential under a country form of government where the people would have been constantly watching the officials, such an office is far more essential under an appointive form of government where officials look upon and treat citizens as meddlers.

Another office which Kauai should have is an island registry bureau. The inconvenience to say nothing of the serious legal embarrassment, of having all Kauai titles of record upon another island, is by far the greatest defect of our present system.

We have already, owing to Governor Carter's good sense, our island superintendent of public works. We need just as much an island superintendent of public instruction. To expect our schools to be effective, systematic work without some directing authority conversant with the needs and personnel of each particular school is to expect an absurdity.

The schools of Kauai should be considered important enough by our government to be entitled to intelligent local direction and control. Another office Kauai should have is a local deputy attorney general so that those inclined to flirt with illegality would find that only three times a year for two short weeks is there a prosecuting official at hand. The way affairs loosen up between court terms is comment enough upon this necessity. Our police of course do much, but two departments of government have never yet been successfully combined.

KAUAI NEWS.
W. W. Taylor has resigned from his position with Gay & Robinson to accept a new one with Hawaiian Sugar Co.

Judging from the prevailing sobriety on the Fourth and the enormous amount of soft drink consumed, Waimanue must indeed be a temperance town.

The Waimanue school houses are being renovated, and a new roof now protects the main building. New windows will be added and the whole premises put in better repairs.

William Levick, a young Hawaiian, was found dead on his porch on the early morning of the Fourth. The deceased was a carpenter and well-known in the community. Heart failure was the cause of his sudden death.

A. Robinson and family are expected back from the Coast in a couple of weeks, after an absence of one year.

Mrs. Hotsford and Mrs. Omsied are at present occupying the McBryde Plantation mountain house.

Government Surveyor Sweetser is busy in Wailua Gulch laying out the proposed new bridge, the bids for which he expects to be ready to receive in a week or two. The specification for the new steel bridge to cross the Lawai Gulch will also be out soon.

Miss Alice Roth is spending her summer vacation in Lihue. She is registered at the Hotel Fair View.

The Lihue Baseball Club celebrated their victory of the Fourth by a luau Saturday. Refreshments and dancing were on the programme.

J. B. Hanakke is recovering from his recent illness.

Miss Potts has again taken charge of the Elsie Hospital. She feels very much the better for her two weeks stay in Koloa.

Alexander McBryde is again on Kauai. He has been suffering from a severe attack of dengue and hopes that the bracing climate of Kauai will effect a cure.

K. W. Kinney states that he is not a

candidate for the position of Deputy Sheriff of Koloa. Oscar Beaver also disclaims any ambition for the position. —Garden Island.

FAKE INSPECTOR

George Kaaua was arrested this afternoon by Detective McDuffie and Lieutenant Leslie and charged with the robbery of various places about the city. The defendant it is said, has been representing to various Chinese and others that he was a board of health inspector who had come to measure their houses and rooms for the board of health. He generally got the occupants to leave the house and, during their absence, would, it is charged, rifle their trunks and effects. He secured, it is claimed, over \$100 from one Chinese.

KAUAI HOME RULERS.

LIHUE, July 11.—A meeting was held by a few of the Home Rulers at M. Pualu's house, Haena, on the 7th inst., headed by James K. Apolo. About ten or twelve Home Rulers were present and most that were present were those that wanted to hear what was going on in the meeting.

SHARKE GETS RELIGIOUS.

NEW YORK, June 12.—Among the parishioners of St. Ann's Roman Catholic Church in East Twelfth street, near Fourth avenue, are two men who never fail to attract attention from the other worshippers. They are Tom Sharkey, pugilist, the Alderman "Billy" Kirk of the Boodle Board. Both of these celebrated characters are of modest mien, but nevertheless are centers of curiosity.

It is not Sharkey's mutilated ear that causes comment as much as the fact that it is somewhat of a novelty to see a real live slugger taking to religion. Time has transformed the erstwhile political power of the old Fourth ward from a debonaire City Father into a figure suggestive of Sunset Rube.

ARGUMENT CONCLUDED.

Argument was concluded today in the case of Henry Cooper against the Island Realty Company before Judge Gear who took the matter under advisement. The suit arises out of a mortgage foreclosure.

CATTLE THIEF SENTENCED.

LIHUE, July 11.—A cattle thief, Mokuakali (K), was sentenced to one year imprisonment with hard labor by the District Magistrate of Hanalei on the 8th inst.
